Competencies

- Equipment maintenance
- Software installation and configuration
- Problem solving
- Teamwork

Languages

- Spanish: Native
- Basque: High level
- English: Medium level

Education

- IT Systems Administration in Networks (FPGS)

SEIM
2024-2026

- Microcomputer Systems and Networks(FPGM)

Cebanc
2022-2024

- English Course – “Hi London”

Londres, Uk
C 2022

About Me

I have been passionate about IT from a very young age. I have experience with both hardware (device repair and assembly, network cabling) and software (Docker, WordPress, network configuration and maintenance).

I also have experience with virtualization environments such as Proxmox, VMware ESXi or Hyper-V, and their scalability.

Professional Experience

- ITMS Technician at Tecnalía
Networking, troubleshooting, infrastructure
June 2024-Present
- IT Technician at Indi&Cold
Networking, troubleshooting, infrastructure (Azure AD, VMware ESXi, ERP, SQL).
June 2024-November 2024
- IT at IKOR
Service desk plus, networking, Office, Azure AD.
June 2023 – June 2024

Skills

- Hardware: Skilled in assembling and repairing computers and servers.
- Software: Experience installing operating systems, web services and deployable Docker containers.
- Virtualization & Monitoring: Experience with VMware vCenter and monitoring tools (Grafana).
- Security: EJPtv2 certified, currently preparing for OSCP.
